

Bio Factor Group

is a group of producers that focuses on natural extracts, the health beverages applications, and food additives for the baking and food industries. Our company, Bio Factor Group, manufactures instant, spray dried extracts of chicory, barley, and green coffee bean, barley malt, cereal blends, coffee substitutes, coffee drinks, and liquid chicory extract, and barley malt syrup.

We only use high-quality, carefully chosen raw materials safe for human consumption. The natural process of water extraction ensures maximum vitamin and mineral preservation. In the manufacturing methods, no chemicals or preservatives are employed. No artificial substances, including pesticides or genetically modified ones (GMOs) are used in any of our products.

It is natural, fully soluble, and has an exquisite taste and aroma. It is a very popular product in the market for hot beverage coffee blends. Pesticides and genetically modified organisms (GMOs) are not present in coffee blend.

Packing in a carton box. Net weight 25 kg. Shelf life: 24 months.

GREEN COFFEE BEANS EXTRACT (GCBE)

Instant Spray Dried Green Coffee Bean Extract is produced from premium-quality Robusta green coffee beans and provides numerous health benefits. It is an excellent source of natural antioxidants called chlorogenic acids. GCBE is 100% pure and fully soluble, and it is widely used in slimming products such as slimming coffees, coffee blends, healthy instant beverages, dietary supplements, etc. Chlorogenic acids are the most powerful antioxidants of natural origin and are found in green coffee beans. Chlorogenic acids play an essential role in human metabolism. The latest scientific research has shown that they have anti-diabetic, anti-inflammatory, analgesic, and antibacterial properties. Pesticides, genetically modified organisms (GMOs), and gluten are not present in GCBE.

Packing in a carton box. Net weight 30 kg.

Shelf life: 24 months.

BARLEY MALT

Instant Spray Dried Barley Malt Extract is prepared from the finest quality, carefully selected, high-level food grade malted barley grains and is natural, fully soluble, and caffeine-free. Barley Malt is a widely used ingredient by the beverage, bakery, and food industry as a healthy ingredient for coffee drinks and coffee substitutes that is free of pesticides and genetically modified organisms (GMO).

Packing in a carton box. Net weight 30 kg.

Shelf life: 24 months.

CHICORY LIQUID EXTRACT

Roasted Chicory Liquid Extract is produced from carefully selected, high-quality chicory roots and is 100% pure with 72% solids, fully soluble, caffeine-free, and with an exquisite taste and aroma. Roasted Chicory Liquid Extract is a very popular product in the healthy beverage, coffee blend, and coffee substitute markets. The liquid chicory extract is free of pesticides, genetically modified organisms (GMOs), and gluten.

Packing in plastic drams. Net weigh is 290kg.

Shelf life: 24 months.

BARLEY MALT SYRUP

is produced from carefully selected, high quality barley grains, is natural with 78% solids, is one of the primary sweeteners (along with honey). Barley Malt Syrup is used in the baked good industry for browning and flavoring. Adding barley malt syrup to yeast dough increases fermentation as a result of the enzymes in the malt, thus quickening the dough preparation process. It is free of any pesticides, and free of genetically modified organisms (GMO).

Packing in plastic drams.

Net weigh is 290kg.

Shelf life: 24 months.
