

BIO Factor Group products, manufactured in the USA, are a collection of cheese sauces, cheese seasonings, baking toppings, and desserts. Our clientele, which includes restaurant chains, quick food chains, sauce and chip manufacturers, and wholesale suppliers to HoReCa, chooses our products because of BIO Factor Group's exceptional quality. The focus of our business is on healthy food products. Our products gain a competitive advantage over other brands because they are certified in accordance with Halal and Kosher standards, exclude preservatives, and can be stored for an extended period of time without specific conditions. Cheese sauces and seasonings are essential ingredients in cuisine that can greatly enhance well-known flavors or give them new hues. In addition to being excellent when used to prepare burgers and pizza, sauces and seasonings also work well as a dressing for pasta, salads, soups, and steaks. They also add a flavorful touch to foods like french fries, chips, tacos, and nachos.

BIO FACTOR PRESENTS

Bio Factor Group desserts epitomize excellence in the craft of confectionery. These will be a flexible and adaptable addition to any dessert menu. Their unique, alluring flavor, fragile texture, and velvety consistency complement a wide range of fresh fruits and berries harmoniously. Our desserts consistently leave a memorable impact!

Don't pass up the chance to introduce new flavors to your clients and broaden your selection of Bio Factor Group sauces, seasonings, and desserts!

METHOD OF PREPARATING POWDERED CHEESE SAUCES:

To prepare 1 serving of sauce, 250 g To 50 g of cheese sauce powder, add 205 ml of drinking water, or a mixture of water and milk (recommended ratio of 70% water and 30% milk), and 2 teaspoons of refined vegetable

POWDERED CHEESE SAUSES

oil. Mix the mass thoroughly and bring to a boil over medium heat, continuously stirring (a small part of the liquid evaporates). Serve warm.

One 200-gram packet of powdered cheese sauce makes 1 kg of ready-made cheese sauce (from 1 kg to 5 kg). The effect is one to five!

Packing options: Zip Lock Stand up Pouch (200g (24/box), 1kg (10/box), 2kg (5/box) and bulk in kraft/poly multilayer bags of 25kg.
Shelf life: 18 months.

POWDERED CHEESE SEASONINGS AND BAKING TOPPINGS

Bio Factor Group's Powdered Cheese Seasonings and Baking Toppers are more popular products. They are prepared and ready to use, based on hard cheeses. They are essential in cooking as cheese seasonings; they are frequently used as baking toppings and as topping ingredients for the production of cheese-tasted chips, nachos, and crackers.
